Re: Letter with answer requested by 1/19/07 Berry's Creek Morton

**REQUEST TO PERFORM REMEDIAL INVESTIGATION/FEASIBILITY STUDY ("RI/FS")**

Randolph Products was a small family business that my sister, Joanna Randolph (46% owner), and I (54% owner) own jointly. We sold the business over 5 years ago. We are in the ECRA process with the state of New Jersey at this time. The cost of our site clean up may exceed the value of the property. We have never used the chemicals that the lawyers are accusing us of having on our site. My sister and I are not responsible for the neighboring property. We don't have the funds to afford anything like what the big law firms will charge. We are both over 70 years old.

On page 2 of your letter you requested the following:

1. *A statement of your willingness to conduct the RI/FS*  
The business was sold 5 years ago. We are in the ECRA process with the state of New Jersey. We may not even have enough money to pay for our own clean up. We are not in a position to pay for this project.
2. *Your company's comments, if any, on EPA's draft AOC and SOW;*  
This is a technical procedure. I believe that most site clean up should be done by an environmental firm. I do not understand why Morton DOES NOT TAKE CARE OF THEIR PROBLEM by hiring a firm and proceeding. Morton has sufficient fund to hire a firm.
3. *The name, address, phone number and e-mail address of the individual who will represent you in the negotiations.*  
I will represent myself. John H. Randolph, 13 Baldwin Road, Saddle River, New Jersey 07458, 201-818-5550, [JHR36@msn.com](mailto:JHR36@msn.com).
4. *A demonstration of your company's technical capability to carry out the RI/FS including the identification of the firm(s) that may actually conduct the work or a description of the process that will be undertaken to select the firm(s)*  
We do not have technical ability of this kind.
5. *A demonstration of your company's capability to finance the RI/FS*  
We do not have funds for this. Morton/Rohm and Hass has a lot of money. They made the deal to purchase polluted property and must have made huge profits from their purchase. Now they are trying to pus the cost of clean up on a faultless neighbor. Morton/Rohm and Hass has so much cash that they are buying back one billion dollars (1,000,000,000.00) of stock on the open market, Their management owns 29% of this corporate giant. Management owns 63,336,000 shares worth \$52.61 per share. It is so

much money my calculator will not go this high. I think it is \$3,332,106,900.00 a lot of money for the super rich. They get a dividend of about \$83,302,672.00 per year. The billion dollar buy back will probably be given to themselves as a stock bonus. And yet they ask me for money

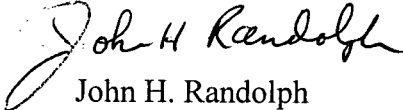

6. *A statement of the willingness by your company to reimburse EPA for costs incurred in overseeing your implementation of the RI/FS*

I am not willing to pay for this

I do not know who John Hanson, Esq. is. I have neither spoken to nor corresponded with him.

I will call you in about 2 weeks.

Very truly yours,

John H. Randolph
